PROFILE

I'm a developer eager to learn, eager to build upon a strong foundation, and work with people and in places that cultivate creativity. As with any project or task I undertake, I aim to continue to add to my reputation as a hard worker with an extraordinary work ethic.

EXPERIENCE

ASSOCIATE/JR DEVELOPER

Envisionit Agency | Jan 2016 – Sept 2016

Envisionit is one of Chicago's longest standing digital agencies. Often tasked with mods and redesigns for existing clients, as well as builds using Wordpress, Joomla, & October. I was also responsible for supplying maintenance support, QA, and UX Improvements. I pushed for good practices, continued education, and developed innovate in-house developer tools in my down time. I would consider this a full stack developer role, with a heavy focus around front end UX. I often provided the company with my knowledge of professional video practices and techniques.

DEVELOPER APPRENTICESHIP

Envisionit Agency | 2015

A 30-day apprentice position that tested my skills & adaptive capabilities. This was a trial phase to determine if I had the chops to become a JR dev at Envisionit. I learned the basics of operations for the company, and at the end of the 30 days, I was hired full time.

WEB DEVELOPMENT TRAINING

Dev Bootcamp | 2015

Dev Bootcamp is an 18-week intensive training program for aspiring web developers, specializing in Ruby, Rails, HTML5/CSS, JavaScript, Jquery to name a few. Here I improved upon my skills for self-learning, leadership, team dynamics and of course the building blocks of coding.

STUDIO MECHANIC • GRIP DEPARTMENT

IATSE Local 476 | 2007 - Current

Proud union member working on motion pictures, television, and commercials. Often given leadership roles, excelling in fast paced environments and effectively executing the smallest of tasks with a strong work ethic and focus for detail.
